

# REBOOKING BREAKDOWN

Tools > Reports > Employees > Rebooking Breakdown

The Rebooking Breakdown is a graphical report which shows your overall rebooking percentage per month in a bar graph format. The report also shows a breakdown of your employee appointment rebooking statistics. For each employee, you can view the number of visits, the number of rebookings, and their rebooking percentage.

This report will assist you in analysing employee performance, allowing you to easily see which employees have the highest rebooking rates.
